

# MITHUN

## Project Architects \ Los Angeles

Mithun is looking for versatile, concept-driven and technically savvy [Project Architects](#) to join our team and be part of a significant project in the Los Angeles area during design and construction. As members of an integrated design practice, our project architects work in a wide range of typologies and scales—with a focus on urban environments and places where people live, work and learn. Our teams are structured to welcome ideas, reward collaboration and enable constant professional growth.

Qualified candidates have a passion for sustainability, a rigorous pursuit of excellence and contemporary design sensibilities, along with at least five years of post-graduate experience, a professional degree in architecture and hold or aspire to obtain a license and LEED® accreditation. Ideal team members have demonstrated experience with all phases of design and documentation using Revit, coordination of consultants and the ability to work with interdisciplinary design teams and client representatives. Experience with complex urban affordable housing, student housing or workplace projects is highly desired. Proficiency is required with Revit, InDesign and Photoshop.

At Mithun, our design has purpose—to create positive change in people's lives. We are an internationally recognized leader in sustainability, combining exemplary design with a focus on building and site performance, human health and social equity. Since the inception of the practice in 1949, our work has been recognized with numerous peer and industry awards including six AIA Committee on the Environment Top Ten project recognitions, an AIA | LA COTE Honor Award and the top Education honor in Contract Magazine's 39th Annual Interior Awards. Mithun is ranked among the top firms in the nation by Architect magazine.
