Mechanical Engineer  
Los Angeles, CA  
The buildings that make up the landscape of our daily lives seem like permanent fixtures, fastened to a time and place. But what if that didn’t have to be true? What if our built environment — where we live, learn, play, and conduct business — carried us forward instead?

Our Buildings practice keeps people at its heart, recognizing that our shared journey forward is shaped by the meaningful and responsive places we design. From iconic designs to monumental groundbreakings, join us to bring transformational building solutions to life. Every day we apply our expertise, creativity, and passion to propel communities into the future—join us!

Your Opportunity

Stantec is seeking an energetic candidate for a mid-level position in our mechanical engineering department in our Los Angeles, CA or Irvine, CA offices.

Your Key Responsibilities

- Engagement in all phases of projects from conceptual planning to commissioning
- Planning and execution of mechanical design, preparation of drawings and specifications, and assistance during procurement and construction
- Working effectively with support personnel
- Participation in client discussions
- Multi-disciplinary coordination

Your Capabilities and Credentials

- Effective interpersonal and people management ability.
- Design experience using Revit 2018 or more recent version and proficiency with MS Office Suite (Word and Excel); Revit experience is a definite asset.
- Excellent communication skills (interpersonal and written).
- Collaboration with team members in a multi-disciplined environment.
- Interest/experience in the application of green engineering principles; LEED AP certification is a definite asset.

Education and Experience

Bachelor’s degree in Mechanical Engineering, ABET Accreditation preferred, licensed professional a plus. 5-10 years of post-graduation experience in the design of
mechanical systems of buildings.
Experience in consulting engineering environment is strongly preferred

Typical office environment working with computers and remaining sedentary for long periods of time. Field work may include exposure to the elements including inclement weather.
