SYSTEMS CHANGE.
how can I use my agency as a designer to address systemic injustice?
design

to make or draw plans for something
The systems of colonialism, racism, sexism, capitalism, supremacism, xenophobia, patriarchy, homophobia, and white supremacy expressed in our material world through the symptoms of displacement, income gap, contaminated land, mass incarceration, transportation access/inequity, education inequity, police brutality, water access/inequity, housing segregation, wealth gap, carbon footprint, and conceptual infrastructures.

FRAMEWORK.
1. REVOLUTIONARY DESIGN WILL LEAD US TO A REVOLUTION BY SIMULTANEOUSLY **DISMANTLING** SYSTEMS OF OPPRESSIONS PERPETUATED THROUGH OUR STRUCTURES AND OUR MINDS AS WELL VALUING AND **NOURISHING** THE SPACES WHERE WE FIND LIBERATION FROM THESE OPPRESSIONS.
2. Revolutionary design is a framework that is rooted deeply in design’s superpower — the imagination — and works to unearth the imagination’s potential to create a collective vision for liberation.
3. REVOLUTIONARY DESIGN IS A FRAMEWORK FOR CREATING **LIBERATED RELATIONSHIPS**. IT CANNOT BE PRACTICED ALONE. RELATIONSHIPS, COMMUNITY, AND THE COLLECTIVE ARE CRITICAL FOR IT’S SUCCESS.
4. Revolutionsary Design is a framework that establishes a **Utopian Praxis** – one that closes the gap between our vision of liberation and our everyday practice.
