- e.) Salary Range - Negotiable
- f.) Job Description –

NELSON is currently staffing a dedicated account team with Architects for one of the world's most innovative and disruptive tech companies. Building architectural teams in **San Jose, CA; Pleasanton, CA and Los Angeles, CA**, we are seeking creative, innovative, and ambitious to add to our team! We're looking for driven candidates with a passion for industrial architecture and projects that change the world.

Are you the right fit?

Are you looking to work on projects that are challenging in terms of volume and velocity? Are you an independent thinker and a problem solver? Do you like to work in a fast-paced environment, frequently dealing with fluid situations and always having to look at things from unexpected angles? Read on – this is the opportunity for you.

Project Architect Key Responsibilities:

- Work as part of a collaborative, innovative, and high-performance design team.
- Follow projects through the entire design and construction cycle – from creation and innovation to implementation.
- Proactively manage up, and help drive positive movement.

g.) Job Requirements

- You are a registered architect.
- You have 5-10 years of experience.
- You make it a point to stay up to date on local building codes and regulations.
- You love to work in Revit, Rhino or Netscape and AutoCAD skills helpful
- You like to get things done!
- You like challenging and complex projects
- You want to play an active role in changing the built world.
