

### **Architect III (Irvine, California)**

Be a part of a dynamic team, a growing office, and the opportunity to make a difference in peoples' lives through beautiful healthcare design. Boulder Associates is a leader in design for healthcare and senior living, providing architecture and interior design services from thriving offices in Irvine, Boulder, Sacramento, San Francisco and Dallas. We seek a full time architect to join our Orange County team. Successful candidates will manage healthcare architecture projects across all phases; from programming through construction administration. Top candidates will be looking for an energetic office environment with long-term career potential and will be eager to learn quickly and progress in their careers.

#### **Duties & Responsibilities:**

- Provide design leadership and technical expertise to determine project requirements for scope, schedule, budget, specifications, materials, equipment, estimated costs and completion times.
- Coordinate design work with internal team, consultants, clients and regulatory agencies.
- Mentor intern level designers.
- Contribute to the Irvine office's business development efforts.

#### **Required Experience:**

- Licensed Architect
- Experience mentoring junior staff
- Experience with project management and juggling multiple projects
- Professional degree in architecture
- 10 years of professional experience
- Portfolio of work that demonstrates excellence in design thinking
- Revit proficiency
- Strong organizational, analytical and problem-solving skills
- Ability to effectively communicate issues and concerns to stakeholders, vendors and project team members.

#### **Preferred Experience:**

- Senior living and behavioral health project experience
- Healthcare project experience
- Commitment to promoting sustainable business practices

#### **How to apply:**
