

## **JUNIOR DESIGNER, LOS ANGELES**

At Blitz we believe that design should tell a story — an interesting and compelling story. What are we about? Where do we stand? What are our passions and what makes us happy? These are legitimate questions and we should seek answers to them throughout the design process.

### About Blitz

Blitz is an award winning design firm specializing in commercial architecture and workplace design. We provide the complete range of architectural services required to take a project from programming through construction. Our team of architects and interior and graphic designers work as one to create thoughtful design solutions with technical rigor.

### About the Opportunity

We are currently seeking a Junior Designer with 2-5 years experience. The ideal team member is someone who is a self-starter, fast learner, and looks for opportunities to improve systems, structures, and themselves. The ideal candidate will bring Blitz's core design values to all their work, combining vast enthusiasm with disciplined project delivery. Revit proficiency and stellar rendering / visualization skills are a must.

This is a full-time position with benefits. Compensation is based on ability and experience. In addition to workplace interiors, our commercial interiors work includes bio-tech, higher education, international hospitality, and developer-led adaptive re-use. We are looking to expand our team to support this work. We love the power of a great idea and are looking for "builders" not joiners.

### Benefits

Full-time employees receive four weeks PTO (including the week between Christmas and New Years when the office is closed).

401(k) with generous matching.

Flexible working hours with four nine-hour days and a half day on Friday.

Full medical, dental, and vision coverage is provided.

Nine paid holidays.

Strong continuing education support on both a firm-wide and an individual basis.

Salary increase upon licensure (successfully passed licensing exams are reimbursed too).

Stocked kitchen and fresh coffee daily.

### Qualifications

2-5 years professional experience.

Expert knowledge and professional experience with Revit.

Accredited architectural degree (BArch or March).

Experience with commercial interiors or retail a strong plus.

Proficiency in SketchUp is a must.

Excellent graphic and verbal communication skills. Expert level rendering skills required.

Proficient in Adobe Photoshop, Illustrator, and InDesign.

Rhino, Grasshopper, and Modo experience a strong plus.

Ability to work within a team environment.

Candidates must have unrestricted authorization to work in the United States.

### Other Stuff

The Blitz team works hard but we make sure we take time to have fun and keep learning. In addition to continuing education opportunities and project management training, Blitz supports internal design and technical presentations through learning lunches, after hours mixers, and a mentoring program that is available to junior staff. We support our industry through a variety of events, and enjoy the company of our competitors (who we also consider our friends). Our Summer / Winter parties are awesome.

### How to Apply

Email your resume, work samples, and salary requirements in a single document in PDF format to [careers@studioblitz.com](mailto:careers@studioblitz.com). No phone calls or drop-ins please.
