

Job Title: Project Architect

Firm Name: RAW International, Inc.

Location: Downtown Los Angeles, 800 S. Figueroa Street, Suite 600, Los Angeles, CA

Firm Profile:

RAW International, Inc. is an award winning, multi-disciplinary architectural design firm. See www.rawinternational.com

Salary Range: Negotiable, depending on skillset and experience. Competitive benefits.

Job Description:

Project Architect to produce and manage technically sound / code compliant designs for a range of small to large-sized projects.

Job Requirements:

- Licensed California architect
- Minimum, 12-15 years technical design, CD production, and CA experience with architectural and interiors projects in the governmental (i.e., County and GSA) or commercial (office TI) areas. OSHPD and/or Transit station experience a plus;
- Able to manage/develop criteria/code compliant and technically sound designs and technical drawings, and research relevant information;
- Conduct code and product research for construction drawings production;
- Strong sense of constructability, and proficient in developing exit, occupancy and building separation analyses, technical details and specification manuals;
- Identify, research, coordinate and resolve design and technical detailing;
- Prepare design illustrations or rough sketches;
- Coordinate and review cost estimates;
- Manage permitting and agency process;
- Demonstrate knowledge of local, state and Federal codes, including accessibility;
- Able to direct CADD staff;
- Proficient with AutoCAD 2017 and M/S Office. Revit is a plus;
