Project Architect with 5-10 years experience

BNIM Architects
San Diego, CA

BNIM is a collaboration of architectural, design and landscape professionals who share a deep commitment to responsible, high-quality design. We offer competitive salaries and benefits, an energetic work place, on-going training opportunities, and an environment that allows employee interests and strengths to flourish. This position is available for our San Diego office, located in the growing East Village in downtown San Diego. The San Diego office has a strong focus on design and innovation, with each project design progressing within a highly collaborative environment. Innovative technological software and systems are tested regularly on projects, and innovative sustainable building systems analyzed through the design process.

About the Position:

Qualified candidates are passionate about design excellence, sustainability and high-performance projects, have a minimum of 5 years architectural experience and an NAAB accredited degree. Experience will clearly show a strong creative design portfolio, which is essential along with strong project leadership. Candidates must demonstrate strong technical knowledge of complex building systems and structures that would be required by institutional, civic, mixed use and other similar entities. Construction administration experience that includes concrete, steel, and wood frame construction is a requirement.

This position fits a person who thrives in a fast-paced, multi-tasking environment, who values productivity and efficiency balanced with utmost quality.

Qualified candidates should possess the following characteristics and skills:

Skills:

- Proficiency in Revit is preferred
- Proficiency in Rhino and/or Sketchup is preferred
- Proficiency in Adobe Photoshop, Illustrator, InDesign is preferred
- Proficiency in Newforma is a plus
- Strong verbal, written, and graphic communication skills
- A collaborator with leadership and client liaison experience
- Well-established skills coordinating team efforts
- Effective personal time management skills to meet project deadlines
- A deadline and detail-oriented work ethic
- Fast learner
- LEED AP is preferred

Characteristics:

- Curious and Creative
- Innovative and Explorative
- Critical and Exacting
- Strategic and Nimble
- Collaborative and Communicative
- Self-driven and Willing (can-do)
- Generous Spirit

Experience:

Filling this role will not be determined by experience only; we are looking for the right fit for our team.
