

JOB CAPTAIN, LOS ANGELES

At Blitz we believe that architecture should tell a story — an interesting and compelling story. What are we about? Where do we stand? What are our passions and what makes us happy? These are legitimate questions and we should seek answers to them throughout the design process. After all, it's not about money, notoriety, or fashion: it's about doing something that has value. And when you get that right, everything else follows.

About Blitz

Blitz is a full service architecture and interior design firm specializing in workplace, commercial, retail, and hospitality design. We provide the complete range of architectural services required to take a project from programming through construction. We are an agile and passionate team who abide by the doctrine of compelling design and technical rigor.

More than just an architecture firm, we are a team of multi-faceted designers that build upon one another's strengths to provide total design solutions for our clients. Our team is comprised of talented architects, interior designers, graphic designers, and communication specialists whose roles interweave to provide novel and thoughtful solutions.

About the Position & The Benefits of Working Here

Job Captains at Blitz are responsible for preparing architectural construction documents under direct supervision of the Project Architect or Lead Designer. They coordinate the documents with project consultants and contractors under the direction of senior staff. Job captains not only provide the critical documentation backbone to our teams but are directly involved in project design and fostering client relationships. Our studio is collaborative and non-hierarchical and every member of the design team contributes to the project design.

At Blitz, we uphold the highest standards of project delivery and professionalism, and the Job Captain will lead by example in all aspects of projects' production processes. This is a full-time position with benefits. Compensation is based on ability and experience. Blitz's work is moving far beyond commercial interiors into bio-tech, higher education, international hospitality, and developer-led adaptive re-use. We are looking to expand our team of technical design leaders to support this work. True Blitzers have stellar technical skills, play well with others, manage deadlines like a boss, and rock their job hard. We love the power of a great idea and are looking for "builders" not joiners.

Benefits

Full-time employees receive four weeks PTO (including the week between Christmas and New Years when the office is closed.)
401(k) with generous matching.
Flexible working hours with four nine-hour days and a half day on Friday.
Full medical, dental, and vision coverage is provided.
Nine paid holidays.
Strong continuing education support on both a firm-wide and an individual basis.
Stocked kitchen and fresh coffee daily.

Requirements

5+ years of experience in architecture or interior design.
Revit proficiency is required.
Accredited degree in architecture or interior architecture.
Excellent technical and design skills.
Excellent verbal, written, and graphic communication skills inclusive of 3D rendering skills.
Experience in architectural interiors preferred. Experience with core and shell / adaptive reuse a plus.
Working knowledge of the California Building Code, and experience interfacing with local agencies having jurisdiction.
Ability to work within a team environment and coordinate with the design team, clients, consultants, and contractors.
Candidates must have unrestricted authorization to work in the United States.

How to Apply

Email your cover letter, resume, work samples inclusive of construction documents and rendering samples, and salary requirements in a single document in PDF format to careers@studioblitz.com. No phone calls or drop-ins please.
