

POSITION:

BIM MANAGER (Revit Manager)

Adamson Associates, Inc. (www.adamson-associates.com) is searching for a **BIM MANAGER**. This position has opportunity for long-term growth and leadership with our firm. Adamson has a generous benefits package and salaries.

SUMMARY:

Reporting to the Principals, Project Managers, and other Adamson BIM Managers, this person will act as the lead on all BIM-related strategy, training, and application.

The successful candidate will have:

- Advanced communication and facilitation skills
- Superior knowledge of architecture practices
- Ability to work autonomously
- Knowledge to be “go to” on all Revit related inquiries from both senior and junior employees
- Resources to build credibility with all staff
- Leadership skills to connect with other Adamson Offices BIM managers to exchange information and knowledge; as well as make sure office-wide standards are being followed

Primary Responsibilities

- Work closely with the Principals and Project Managers to ensure that all project and contractual requirements are adhered to throughout the course of a project, flagging any issues that may negatively impact the projects.
- Organize and schedule Revit training course for those new to Revit
- Teach project processes such as Back-ups, model exchanges, recreation of central files, cleanup process.
- Suggest and implement Best Practice Solutions for Revit teams and/or individuals.
- Do project set-up for new projects.
- Maintain Revit office libraries and templates.
- Follow the development in the Revit world and suggest and implement new add-ons for specific purposes on files.
- Revit assessment for potential new employees
- Analyze how to best integrate models from different applications to be used with our Revit projects.
- Teach quality control of outputted product to team members.

Requirements Include:

- Minimum Bachelor of Architecture degree
- Minimum 5 years’ experience as a BIM Manager with a background in implementing training programs and developing BIM standards for a practice
- Expert level Revit proficiency. Subject matter expert on Revit, its add-ons and their application and use within architecture

Interested applicants should send a cover letter, resume, and representative portfolio of your work to the e-mail address below. Your documents should be in a PDF format or similar and no more than 10 pages/5 MB. Please keep it simple and do not send interactive-application or zipped files. Please send your information to: jogrady@adamson-associates.com
