

Senior Project Manager

Lionakis – Newport Beach

Do you thrive in an imaginative and inventive environment? Are you someone who flourishes when part of a cohesive team where collaboration and ideas flow freely? We're looking for an experienced **Senior Project Manager** to join our Healthcare team in our Newport Beach office. The Healthcare team work on various projects from: medical facilities, health facilities, and specialty clinics.

An ideal candidate would serve as a project lead and manage the oversight and direction for all phases and aspects of a project from design through construction. This person would have also mastered general concepts, standards, and team dynamics as they relate to their assigned projects and takes on a lead role in collaborating with the internal project team and external contacts.

As the Senior Project Manager, you will

- Direct the project and resource planning and establishes project timelines and budgets.
- Provide project management and technical direction to the project teams through all phases of projects and has the ability to manage a variety of projects simultaneously.
- Develop solutions for complex design problems, including code compliance and agency interface.
- Be responsible for project management, technical oversight, and coordination of project activities with clients, consultants, contractors, and staff.
- Identify and addresses issues affecting project budget, construction costs, schedule, and risk management related to the Firm.
- Direct the project teams for completion of project tasks consistent with project management plans and to ensure the completion of the project within established timelines and budgets.
- Manage potential client and consultant requested changes to scope of work; determines cause and effect to project budget and schedule on projects.
- Ensure that The Lionakis Way standards for design, quality control, and production are followed.
- Review and evaluates documents for accuracy and coordination with the project team.
- Be responsible for delegating tasks to staff as well as coaching and supporting staff's professional development.
- Demonstrate excellent time management and organizational skills.
- Be detail-oriented, collaborative, and proactive in completing work accurately and meeting deadlines.
- Actively participate in market/studio project manager meetings and staffing processes.
- Assist project team and market/studio leadership with other duties that may be assigned.
