Job Title: Project Architect

Salary Range: Commensurate with experience

Benefits: CO Architects is an equal opportunity employer and offers a full range of competitive benefits to employees including: healthcare coverage; a 401K plan and profit sharing; Paid Time Off (PTO); a medical flexible spending account; and participation in the firm’s performance-based bonus program. CO Architects also offers a firm-sponsored education program to encourage professional training and development.

Job Description: CO Architects is looking for a Project Architect to join our interdisciplinary and collaborative project teams. We are a practice dedicated to making buildings that enrich people’s lives – places of lasting significance that appeal as fully to the spirit as to the intellect. We are engaged in a collaborative process of discovery and immersed in the craft and technology of building. Our practice is founded on a culture of integrity and mutual respect, and committed to continuous learning in support of professional and personal growth. We are a nationally recognized specialist in architectural programming, planning and design for the science & technology, higher education, healthcare, K-12 and civic sectors.

Candidate should exhibit the following skills and traits:

- Ability to work in a collaborative and dynamic team environment
- Proficiency with technical detailing and documentation
- Strong design and graphic sensibility
- Strong organizational skills and ability to prioritize
- Strong interpersonal skills
- Creative problem solving
- Strong verbal, written and graphic communication skills
- Experience and knowledge in the following:
  - Building codes and agency requirements ideally including OSHPD
  - Building Engineering Systems and coordination with consultants
  - Working with contractors/trades in collaborative delivery
  - Design and Documentation (drawings and specifications) of institutional projects (Ideally healthcare)

Job Requirements:

- Minimum of 8 years’ experience within the design and construction industry
- Prior healthcare experience strongly preferred
- Bachelors and/or Masters Degree in Architecture required
- Proficiency in Revit/BIM production required
- Professional license within the State of California strongly preferred
- LEED certification preferred
