

BERLINER

ARCHITECTS

Senior Architect | Berliner Architects | Culver City, CA | 12.4.2020

At Berliner we believe that **Every Space Counts**. Based in the Culver City Arts District, we have provided quality services to clients since 1996, always striving to develop solid partnerships through shared creativity, vision, and commitment. We work with many mission-based organizations helping them realize their goals by creating buildings and spaces that embody their values and community.

Berliner Architects is currently seeking a Licensed Architect with 10+ years' experience working on Higher Education, K-12, Institutional, Religious, and Entertainment Projects. We're looking for a strong, self-directed professional that can work as part of a team, and independently through schematic design, design development, and construction documents. Researching code and zoning issues, coordinating consultants, navigating the permitting process and developing building design through all phases of the project including interior and exterior building details is key. Bachelor's Degree with strong skills in Revit, AutoCAD, and Sketchup as well as a Current California Architects' License is required. Experience working on DSA projects, LEED certified, and developing sustainable designs preferred.

Berliner Architects' is a highly collaborative office where architecture and interiors are closely integrated throughout the design process. Weekly discussions and monthly office meetings fuel shared firm creativity. We care about our employees and offer generous benefit packages. Curiosity and ambition are qualities we value and encourage. We are looking for team members that are passionate about making a difference in the community we all live. The Berliner team gives form to the client's mission and takes the experience to the next level, making **Every Space Count**.

Salary Range Based on experience.

Job Requirements

- 10 + years' experience in architectural design, technical drawing, project management, and 3D modeling.
- Bachelor's or Master's degree in architecture.
- Current California Architect's License
- LEED Certified
- Ability to work both independently and in a collaborative team environment.
- Experience with Revit, AutoCAD, and Sketchup is non-negotiable
- Management and organizational skills to lead projects from schematic design through construction administration.
- Excellent presentation and communication skills including graphic, oral, and written communications.
