

WE'RE HIRING: DESIGNER

CENTRIC
ARCHITECTURE

PROJECT ARCHITECT | DESIGNER:

Centric Architecture is an architecture design firm based in Nashville, TN with projects across the south-east region. Our projects and specialties range from mixed-use developments, adaptive reuse, multifamily, religious, and educational projects – just to name a few. The young leadership is using the firm's 65-year history as both a firm foundation and a catalyst for future growth and endeavors. Associating with both the "old" and the "new", our roots in historic preservation have shifted the firm to one of the top adaptive reuse firms in the area.

We are a bunch dedicated to design and people, both inside our walls and outside in our community. We value our carefully cultivated studio environment, and we are looking to add the right person to the mix.

Centric is looking to add a forward-thinking member to our team who is passionate about design. We are specifically looking for an individual with a keen eye for design and the skills to bring those concepts to life on paper. One would be expected to critically problem solve and iterate design options on various schemes and projects in the office.

Requirements:

- Project Architect Applicants should hold a degree in Architecture from a NAAB accredited program. The position is open to anyone with 3-8 years of experience after graduation and on the path to licensure. Proficiency in Revit and Adobe suites are encouraged, but not required.

- Interior Design Applicants should hold a degree in Interior Design from a NCIDQ accredited program. The position is open to anyone with 3-8 years of experience after graduation. Proficiency in Revit and Adobe suites are encouraged, but not required.

Applicants should send a resume and portfolio to info@centricarchitecture.com. We look forward to hearing from you!
