# PROJECT DESIGNER / ARCHITECT

**Description:**

We are seeking a Project Designer/Architect to join our team. This position requires a hands-on approach to working with the design, consultants, and contractor teams. Comprehensive experience working on all aspects of architectural design practice is beneficial including responsibility from the development of design concepts to drawing documentation production and construction administration.

**General Project Architect Responsibilities:**

- Develop the design of projects from concept through completion with consistent thoughtful attention to high quality detailing and project delivery.
- Client management and project delivery satisfaction
- Prepare and coordinate construction documents
- Conduct and coordinate document reviews

**Qualifications:**

- 8+ years of experience in the professional practice of architecture, including all phases of design and construction
- Bachelor or Master's Degree in Architecture
- Demonstrated experience with high-end commercial construction and detail-oriented design
- REVIT, Bluebeam, Adobe Creative Suite and Microsoft Office experience required
- 3D Max, Rhino, Sketch-up preferred
- Strong communication and collaboration skills required
- Registered Architect and LEED credentials preferred

**How to apply:**

- Submit a cover letter, detailed resume, and references to hr@skylabarchitecture.com
- Include the role/title in the email subject line
- No phone calls, please
