

ABOUT: Bracket Architecture Office provides architectural services for both residential and commercial clients across a broad range of project types and scales. We are growing and looking for collaborative, focused, detail and solution-oriented individuals passionate to work with amazing clients.

JOB TITLE: Designer III

LOCATION: San Luis Obispo, CA

SALARY: Dependent upon experience

JOB SUMMARY: Bracket Architecture Office is looking for a full-time, well-rounded Senior Architectural Designer who is creative, driven and possesses strong technical skills. We are looking for an experienced candidate who has previously managed multiple small to medium sized projects simultaneously at all phases of the design process from concept through construction. Applicants should be able to translate design concepts into reality while simultaneously managing project workflows. The ability to shift gears seamlessly between a wide variety of tasks is a must. The ideal candidate for this position is a highly motivated, detail-oriented and cooperative problem solver with a strong work ethic and excellent communication and interpersonal skills. Sarcasm and a sense of humor are a plus.

MINIMUM QUALIFICATIONS:

- Professional degree in Architecture from an accredited institution [Compelling equivalent education will be considered].
- 5+ years professional architectural experience with various project types [residential and commercial]. Candidates are expected to provide a design portfolio including professional work samples.
- Fluency in AutoCAD, SketchUp, Enscape/Lumion and Adobe Creative Suite [additional proficiency in other programs such as Revit are a plus].
- Knowledge of current building codes, accessibility, and zoning regulations
- Thrives in a fast-paced work environment and executes through obstacles and deadlines with a positive attitude.
- Possesses strong analog skills, is extremely organized, reliable, both independent and collaborative and able to prioritize as required.
- Desire to continually learn new skills.
- Authorization to work in the U.S.

DUTIES AND RESPONSIBILITIES:

- In collaboration with the broader team, design, coordinate and execute multiple projects simultaneously from concept through completion.
- Serve as lead point of contact to clients, coordinating with consultants, and producing and/or overseeing the production of a full set of design and construction drawings.
- Able to take direction and initiative with minimal supervision.

WORK ENVIRONMENT AND TRAVEL REQUIREMENTS:

- This role is expected to work in the office in San Luis Obispo, California. Project site visits and agency meetings occur on an as needed basis outside of the office.
- This role regularly utilizes a computer, including the use of a monitor, mouse, and keyboard. Individuals must have dexterity of hands and fingers to operate a computer keyboard.

SCOPE OF SUPERVISION/AUTHORITY:

Duties are performed under limited supervision. Often responsible for planning and organizing their own work, which may or may not be directly related to general business operations of the company or its customers. Will receive training and guidance from their manager as needed. No direct management responsibility.

The incumbent or successful candidate must meet the job requirements above to perform the essential functions of this position and achieve the outcomes/results indicated in this job description. The Company will make every effort to make reasonable accommodations upon request to enable qualified individuals with known disabilities to perform the essential functions of their job.

TO APPLY: Please send your resume and a portfolio inclusive of work samples to work@bracketao.com. Please no calls or drop-ins.
