

**Title:** Project Architect/ Project Manager, Minimum 5 yrs Experience

**Firm Name:** ARCHITECTS hanna gabriel wells (HGW)

**City:** San Diego, CA

**Firm Profile:** We're an architecture, site and interior design studio that focuses on the process of problem solving while making beautiful and sustainable places. Our design process leads to unique, well crafted, environmentally sound solutions that support the collaboration of people, idea development, healthy living. Located in an open studio a block away from the ocean in San Diego, we foster collaboration and camaraderie amongst our 20-person team. Our firm works on a multitude of project types including Custom Single Family Residential, Multi-Family Residential, Higher Education, Healthcare, Life Science, Workplace, Hospitality and Civic.

**Salary Range:** HGW offers competitive wages, employee benefits, and year-end profit sharing in an open studio within a walkable beach community.

**Job Description:** Architects HGW is seeking self-motivated applicants with strong communication and organizational skills to assist with multiple project types including Custom Single Family Residential, Multi-Family Residential, Higher Education, Healthcare, Life Science, Workplace, Hospitality and Civic. We are a design-oriented office, offering hands on experience and growth opportunity in a collaborative culture.

Applicants will be required to demonstrate their active collaboration as part of project design teams having experience with commercial and/or civil project types. Must demonstrate an understanding of design concept development, and have the ability to develop and execute assigned tasks and responsibilities which further the design concept. Applicants will need to show detailed production and documentation knowledge of project design and documents for various construction types and technical requirements. Importantly, applicants will need to demonstrate an understanding of collaboration with multi-disciplinary teams for the coordination and development of projects.

**Job Requirements:** Applicants must meet the following criteria to apply:

Professional Degree in Architecture from an accredited University Architecture Program, Minimum Five (5) to eight years of prior, post-graduate experience, and demonstrated proficiency with some or all of the following: Revit or similar BIM software; AutoCAD; SketchUp or similar 3D modeling software; Enscape, Twinmotion, Lumion, or similar rendering software; Adobe Creative Cloud

including Illustrator, InDesign, and Photoshop. Experience with healthcare and/or life science architecture is preferred but not required.

**How to Apply:** Send Letter of Interest, Resume, and relevant experience to [careers@architects-hgw.com](mailto:careers@architects-hgw.com)
