

### **Interior Architect/Designer – Higher Education Focus**

Hacker is an architecture and interiors studio of 60+ united by a desire to create spaces that enrich the world – spaces that make us feel more connected to the landscape, each other, and ourselves. Our devotion to craft and 30+ year history of environmentally progressive design, our expressive use of materials and natural light – above all, our reputation for seeking clarity and meaning in every aspect of the work – has earned us international, national, and regional design awards, top prizes in national design competitions, and publication internationally.

We are an equal opportunity employer and champion social equity and mentorship. We value diversity, are active in our community, and seek to be a workplace where diverse voices are represented and heard. We offer competitive salary and generous benefits including paid family and medical leave; 401k with socially responsible investment options and employer contributions; company paid volunteer time; continuing education stipends; health, dental, life, and disability insurance; and FSA. Hacker is a Just Organization and is actively working on issues such as diversity, equity, and inclusion in the workplace; corporate social responsibility; and combating climate change. We look for employees who are interested in joining us in this important and challenging work.

We are currently seeking an interior architect or designer with 7-10 years of experience, preferably including higher education and/or public or institutional projects. Ideal candidates will have programming experience and be comfortable leading user group meetings, synthesizing the information, and managing it through the design process. We are looking for a team player who is excited about education and institutional projects, and who will work collaboratively with clients, consultants, and team members.

#### **Basic Qualifications:**

- Bachelor's degree in Interior Design or Architecture
- 7-10+ years of experience, ideally including higher education projects
- Excellent design and technical skills
- Passion for sustainable design and knowledge of healthy materials criteria
- Fluency in Revit, SketchUp, and InDesign
- Strong rendering and drawing skills

#### **Desired Qualifications:**

- Knowledge of, or interest in learning about, Critical Race Theory or other anti-racist / equity frameworks
- Sustainable design credential(s) such as LEED, WELL, LFA
