Looking for our next maven! We are searching for an Architectural designer with great energy for Preen, Inc. We are an ultra-special architecture and hospitality design firm creating restaurants and hotels in LA and beyond.

We are seeking someone educated and trained as an architect with around 3 years of work experience. Our ideal candidate has a really good handle on Revit and is looking for an opportunity to support, learn and be trained in what it takes to make a project sing. We are a small, tight team. Your responsibilities will be grand and so will you.

We are committed to clarity, communication, and integrity as we continue to grow and explore new projects and more magic. We seek someone really outstanding to be a part of our family. We work together, in office. If you are interested, please email your resume and portfolio to [alexis@preeninc.com](mailto:alexis@preeninc.com).
