

Project Architect/Designer

Pfeiffer, a Perkins Eastman Studio is currently seeking creative architects to support our continued growth. As a distinct studio within Perkins Eastman, we are a design-focused practice of architects, interior designers and planners who work nationally and internationally with an emphasis on cultural and arts facilities, libraries, and educational buildings, as well as renovation/preservation and adaptive reuse projects for public and private clients.

- Candidates should have the following qualifications:
- Architectural degree from an accredited program
- 7-10 years of relevant architectural experience in the above listed cultural, institutional, and educational work
- Architectural licensure in place or nearly complete
- Excellent design and graphic skills, with the ability to participate in the conceptualization and design of complex projects from the pre-design through construction documents phases
- Advanced digital modeling & rendering skills
- Self motivation and the ability to manage time well and achieve project deadlines
- Excellent written and verbal communication skills, with fluency in English
- Experience working in the context of multidisciplinary project teams
- Fully proficient in Revit
- Working knowledge of BIM360 Design, AutoCad, Sketchup, Enscape 3D, Lumion, Bluebeam, Rhino, Adobe Suite, and/or other design related software is considered essential.

Position Responsibilities:

- Lead and assist in design efforts on design projects at a variety of scales (typically \$15 – 75 million in construction cost), working with the Design Principal and Principal in Charge
- Demonstrate a high degree of creative thinking in the design process, and be able to effectively communicate design ideas both verbally and graphically
- Develop presentations using physical and digital tools
- Participate in charrettes and develop ideas and materials for use in project marketing pursuits
- Originate and develop concepts and options for planning and feasibility studies
- Author building design concepts and proposed solutions for renovation or new construction design problems within the context of a collaborative project team
- Work directly and effectively with clients, consultants, vendors and contractors
- Participate constructively in a team-oriented environment
