

## Project Architect

The Cearnal Collective, a well-established Santa Barbara design firm with an incredible variety of projects, is looking for an experienced Project Architect to join our tight-knit group of dynamic, passionate and creative people.

Come join a workplace where your voice is heard, ideas are encouraged and your work effort is rewarded with generous profit sharing. This is an incredible opportunity for someone who is looking for a unique and collaborative environment with potential for professional and personal development. Our downtown location offers a family oriented, dog-friendly and nurturing work environment with great amenities and resources. We are currently following the work from home order.

We are seeking someone who can plan, develop, manage, and execute a variety of projects. Revit literacy is required. Comprehensive understanding of building codes, technical detailing and construction methods is essential.

As a Project Architect, you will have the opportunity to mentor and direct a young and enthusiastic staff and maintain a hands-on approach to creating project documents.

The Cearnal Collective offers generous salaries and excellent benefits, including a 401k + profit-sharing program, health insurance, HSA, full vacation and holiday pay, including Fiesta!

Compensation is commensurate to experience.
