## PROJECT DESIGNER

**Job Type:** Architecture**Job Status:** Full-Time**Location:** Newport Beach, CA

*tBP/Architecture ([www.tbparhitecture.com](http://www.tbparhitecture.com)) is a full-service architectural practice, recognized internationally as a leader in programming, planning, design and management services with a primary focus on Educational Facilities since 1952. Our offices in Newport Beach and Walnut Creek, California, represent a valuable resource of professional knowledge, talents and abilities which are provided to our clients with a personalized level of commitment.*

### Duties/Responsibilities

- The Project Designer (PD) works in collaboration with team members and under the supervision of the Design Principal.
- The PD assists in the design detailing of the work and ensure that it is properly completed.
- The PD is responsible for the project design evaluation in all phases of development.
- The PD must be proficient in designing, space planning, color and material selection, detailing, documentation and constructability.
- The PD must be able to coordinate their work and share information with the project team as well as the Client.
- The PD must convey ideas and concepts with professional clarity to clients both verbally and graphically.

### Skills/Requirements

- Excellent organizational and communication skills.
- Educational projects and Division of the State Architect (DSA) experience preferred.
- Working knowledge of following programs preferred: AutoCAD, Revit, Sketchup and Photoshop.

### Education Requirements

- Bachelor's degree in Architecture and California Licensed Architect preferred
- At least three years of relevant experience.
