

Architect – Los Angeles

Description

The award-winning team at GGLO, a collaborative design firm, seeks an **Architect** for our **Los Angeles** location to support our growth in multiple locations, disciplines, markets, and project types.

About GGLO

GGLO is a design practice for architecture, urban design, landscape architecture, and interior design. With offices in Los Angeles, Seattle, and Boise, we work as a single, collaborative studio focused on connecting people through beauty and innovation. We create projects which are visionary, contextually appropriate, and culturally resonant.

About the Role

The primary function of the Architect at GGLO is to facilitate and coordinate architectural services with aligned disciplines on assigned projects from site and program analysis through construction. The Project Architect is responsible for the development and documentation of the project in collaboration with the project team and is an active participant in the design process—supporting design intent through knowledge of constructability, materiality, and detailing.

Essential Duties and Responsibilities

Project

- Prepare project documents for meetings, presentations, and submittals
- Perform work requiring independent judgment and problem solving
- Model and draw accurately based on scope and phase of project
- Understand and follow GGLO's standards of project documentation
- Create redlines in a strategic and thorough manner
- Complete assigned tasks by deadline

Individual

- Promote decisiveness and standards of excellence that result in higher productivity, accountability, and quality of our performance
- Use of clear and open process for solving problems
- Awareness of the larger context and impact of modifications to design
- Ability to manage time and priorities and communicate them to the project team
- Works to advance and explore design opportunities offered by each project
- Fosters enthusiasm and creativity on each project
- Ability to effectively mentor less experienced staff

About You

Professional Knowledge & Experience

- Experience in one of GGLO's core markets: Wood frame, multifamily, mixed-use, Type I and Type II construction.
- Experience in residential design is preferred, high-rise or hospitality experience a bonus
- Strive to develop the highest quality design
- Innovative, solution-based thinking

- Committed to an integrated design process

Technological Expertise

- Revit production capable
- Working knowledge of multi-family housing and other building types
- Knowledge of the phases of the design process and construction
- Knowledge of materials and detailing
- Understanding of accounting and billing processes
- Knowledge of code and regulations governing the industry and ability to perform research
- Knowledge of the parts and purpose of contracts, drafted documents, and specifications
- Experience with Deltek Vantagepoint
- Experience with Rhino preferred, Grasshopper a bonus
- LEED accreditation preferred

Requirements

- Undergraduate college degree with an emphasis in Architecture required. A graduate degree in Architecture preferred
- Architecture License
- Five (5) or more years cumulative experience in a professional design or Architecture office setting
- Demonstrated proficiency with Revit, Adobe Creative Suite, SketchUp and Windows OS
- Excellent interpersonal, leadership, communication, and presentation skills
- Ability to hand sketch to communicate design concepts
- Authorization to work in the United States
