

Architectural Designer II – Los Angeles

Description

The award-winning team at GGLO, a collaborative design firm, seeks a **Designer II** for our **Los Angeles** location to support our growth in multiple locations, disciplines, markets, and project types.

About GGLO

GGLO is a design practice for architecture, urban design, landscape architecture, and interior design. With offices in Los Angeles, Seattle, and Boise, we work as a single, collaborative studio focused on connecting people through beauty and innovation. We create projects which are visionary, contextually appropriate, and culturally resonant.

About the Role

The primary function of the Architectural Designer II at GGLO is to support the project team of one or more multi-family/mixed-use projects in accordance with the established goals and scope of each project. This role collaborates with all team members in an effective and efficient manner, working under the direction of team leadership.

Essential Duties and Responsibilities

Project

- Model and draw accurately based on scope and phase of project
- Prepare project documents for meetings, presentations, and submittals
- Follow GGLO's standards of project documentation
- Incorporate redlines in a thorough manner
- Complete assigned tasks by deadline

Individual

- Develop proficiency with software to effectively convey design intent
- Develop proficiency with software to effectively produce coherent design and construction documentation
- Be proactive, taking the initiative to tackle tasks and challenges

About You

Professional Knowledge & Experience

- Experience in one of GGLO's core markets: Wood frame, multifamily, mixed-use, Type I and Type II construction
- Capable of reviewing own work
- Experience with being a part of a collaborative, integrated team structure for all phases of work

Technological Expertise

- Revit production capable
- Working knowledge of multi-family housing and other building types
- Experience with the Concept and Schematic Design process
- Experience with the production of Design Communication packages
- Experience with Land-use entitlement packages
- Ability to think in 3D and understand and solve complex design issues
- LEED accreditation preferred
- Working toward licensure

Requirements

- Architecture Degree or equivalent
- 3+ years of experience, 5+ preferred
- Demonstrated proficiency with Revit, Rhino, Adobe Creative Suite, and Windows OS
- Excellent interpersonal, leadership, communication, and presentation skills
- Ability to hand sketch to communicate design concepts
- Authorization to work in the United States
