Senior Project Manager

Hacker is an architecture and interiors studio united by a desire to create spaces that enrich the world – spaces that make us feel more connected to the landscape, each other, and ourselves. Our devotion to craft and 30+ year history of environmentally progressive design, our expressive use of materials and natural light – above all, our reputation for seeking clarity and meaning in every aspect of the work – has earned us international, national, and regional design awards, top prizes in national design competitions, and publication internationally. Hacker Architects is an equal opportunity employer and champion social equity and mentorship. We value diversity, are active in our community, and seek to be a workplace where diverse voices are represented and heard. Hacker is a Just Organization and is actively working on issues such as diversity, equity, and inclusion in the workplace; corporate social responsibility; and combating climate change. We look for employees who are interested in joining us in this important and challenging work.

Why Work at Hacker?

• We offer competitive salary and generous benefits including paid family and medical leave; 401k with socially responsible investment options and employer contributions; company paid volunteer time; continuing education stipends; 100% medical, dental & vision, company paid disability insurance and life insurance; and FSA/HSA, and PTO, 3 weeks in the first 3 years.
• We promote a work life balance and are sensitive to family and medical needs.
• As a firm our drivers are climate justice and design justice.
• We focus on community architecture – libraries, academic, civic, cultural, and private commercial projects.
• We work with companies that align with our values and whom we believe can make a positive difference in the industry and beyond.

We are currently seeking highly qualified and experienced Senior Project Managers to join our creative teams. Individuals should demonstrate well-rounded experience including excellent management, design, and communication skills, and technical proficiency in project process and documentation. Candidates should be a licensed architect and have minimum 15+ years of relevant experience. For this role, we are seeking experienced Project Managers with an emphasis on education-related experience.

Basic Qualifications:

• NAAB-accredited degree in Architecture (or similar program)
• Registered Architect in Oregon (If registered in another state, willingness to register in Oregon)
• Experience managing complex projects (preferably for institutional and/or public clients)
• Strong organizational skills and ability to plan complex schedules
• Ability to effectively manage multiple consultants and team members
• Ability to manage teams within set fees
• Experience managing and mentoring junior staff
• Ability to manage complex scopes of work with minimal oversight and to distill information into clear goals and objectives
• Experience with jurisdictional reviews and processes
• Familiarity with various contract delivery methods
• Ability to build relationships and support business development efforts of the firm
• Ability to communicate with and present information to a variety of client, team, and community audiences
Desired Qualifications:

- Ability to apply design thinking in support of design direction
- Sustainable design credential(s) such as LEED, WELL, LFA
- Knowledge of, or interest in learning about, Critical Race Theory or other anti-racist / equity frameworks
- Relationships with higher education, library, and/or other institutional clients
- Experience using Revit, Adobe Creative Suite, and planning software such as Deltek
