

Mid-Level Architect / Designer 4 - 8 yrs

Hacker is an architecture and interiors studio united by a desire to create spaces that enrich the world – spaces that make us feel more connected to the landscape, each other, and ourselves. Our devotion to craft and 30+ year history of environmentally progressive design, our expressive use of materials and natural light – above all, our reputation for seeking clarity and meaning in every aspect of the work – has earned us international, national, and regional design awards, top prizes in national design competitions, and publication internationally. Hacker Architects is an equal opportunity employer and champion social equity and mentorship. We value diversity, are active in our community, and seek to be a workplace where diverse voices are represented and heard. Hacker is a Just Organization and is actively working on issues such as diversity, equity, and inclusion in the workplace; corporate social responsibility; and combating climate change. We look for employees who are interested in joining us in this important and challenging work.

Why Work at Hacker?

- We offer competitive salary and generous benefits including paid family and medical leave; 401k with socially responsible investment options and employer contributions; company paid volunteer time; continuing education stipends; 100% medical, dental & vision, company paid disability insurance and life insurance; and FSA/HSA, and PTO, 3 weeks in the first 3 years.
- We promote a work life balance and are sensitive to family and medical needs.
- As a firm our drivers are climate justice and design justice.
- We focus on community architecture – libraries, academic, civic, cultural, and private commercial projects.
- We work with companies that align with our values and whom we believe can make a positive difference in the industry and beyond.

We are currently seeking an Architect/Designer with 4-8 years of experience. Ideal candidates will be collaborative and aspirational, have both design and technical skills, and be committed to the endeavor of sustainable design practices and quality design and construction.

Basic Qualifications:

- NAAB-accredited degree in Architecture
- Fluency in SketchUp or Rhino, Revit, and Adobe Creative Suite
- Fluent rendering, modeling, and drawing skills that can be utilized for design studies and client presentations
- Ability to document specific scopes of work with minimal oversight
- Ability to make construction drawings at all scales
- Solid foundation of experience making drawing sets for all phases of design
- Ability to apply design thinking in support of design direction
- Communicating skills for coordination with other designers and consultants

Desired Qualifications:

- Sustainable design credential(s) such as LEED, WELL, LFA
- Knowledge of mass timber construction
- Knowledge of, or interest in learning about, Critical Race Theory or other anti-racist / equity frameworks

- Registered Architect in Oregon, or plan to achieve registration
