

# BERLINER

ARCHITECTS

Job Title - **Interior Designer**

Firm Name - **Berliner Architects**

Position Location - **Culver City, CA**

## Firm Profile

From the beginning, Berliner Architects has focused on developing solid partnerships with mission-based organizations, helping them realize their goals by creating buildings and spaces that embody their values and community, making **Every Space Count**.

We value and encourage curiosity and ambition. Berliner Architects is a highly collaborative office where architecture and interiors are closely integrated throughout the design process. Weekly discussions and monthly office meetings fuel shared firm creativity.

## What We Can Offer You:

- Collaborative, fun, engaging environment with high-quality design on community-based projects.
- Small firm environment allows you to play a larger role on projects and stay on projects from the start of design to completion.
- Office in Culver City Arts district within walking distance of the Expo Line, Helms Bakery, Platform, and many shops and restaurants.
- Hybrid schedule with the ability to work from home Fridays.
- Comprehensive benefits package including medical, dental, vision, 401K, life insurance, paid holidays, and paid time off
- Professional development sponsorship & opportunities including membership and testing fees, in office opportunities for licensure credits, and sponsorship to events and conferences.

## Job Description

Berliner Architects is currently seeking a **Interior Designer** with **5-10 years'** experience who shares our passion for thoughtfully designed spaces and making a difference in the community in which we all live.

## Your Approach

You are a strong, self-directed professional who can lead a team from kickoff through design, documentation, and construction administration. You are passionate about community-based design as well as equity and sustainable design.

## Job Requirements

- 5-10 years' experience in interior architectural design, technical drawing, project management, and 3D modeling.
