

Senior Design/Technical Architect

Levin & Associates, an internationally recognized and award-winning firm, founded in 1980 by architect Brenda A. Levin, FAIA, is seeking to hire a **Senior Design/Technical Architect** to join our team.

We are looking for a creative, dedicated, and hard-working licensed professional with a minimum of 10 years of experience in commercial and institutional projects to join our practice. The successful candidate will be accomplished in design, construction document production and detailing. The Senior Design/Technical Architect will support and oversee the successful completion of multiple projects concurrently, providing technical knowledge and guidance to the project team regarding the production of high-quality construction documents.

Must be proficient in AutoCAD 2023, Adobe Creative Suite, and 3D modeling and can lead a project, manage a team of consultants, and mentor junior staff.

Among our current projects are new buildings and infrastructure work at Dodger Stadium, a new Performing and Visual Arts building at a progressive private high school, historic preservation of the iconic LA Times buildings and Crossroads of the World. Expertise in these building typologies will be beneficial.

Our offices are in the BLOC/Downtown LA. Applicants must be willing to work in the office a minimum of 3 days a week. We offer a competitive salary and excellent benefits.

Interested applicants should send an email including resume and relevant work examples (PDF files) to info@levinarch.com. **Reference Senior Design/Technical Architect position on the subject line.**
