

DUMICAN MOSEY ARCHITECTS - SAN FRANCISCO, CA

POSITION AVAILABLE: INTERMEDIATE-LEVEL DESIGNER

About the Position

Dumican Mosey Architects is seeking an Intermediate-level Designer to join our team and build upon our award-winning portfolio of modernist projects. The ideal candidate will have a balance of strong technical- and design skills, past involvement across all phases of project development, and experience in high-end single-family residences. The individual should be team-oriented while able to work independently, possess keen problem-solving skills, and be flexible and eager to learn.

About Dumican Mosey Architects

Dumican Mosey Architects is an award-winning San Francisco-based architecture and design firm with a culture of collaboration, communication, quality, opportunity, growth, expertise, individual-leadership, and team-oriented success. The environment at Dumican Mosey Architects is fast paced with a high standard of quality. We specialize in high-end, design- oriented modernist residential projects that are complex in process, design, detail, documentation, and expectation. We believe the practice of architecture is a thoughtful balance between pragmatism and poetry.

Qualifications & Requirements

Education: A Professional Degree in Architecture

Experience:

- 4 - 8 years of experience with an architectural firm
- Experience in all phases of project development including construction documents
- Familiarity with high-end residential projects and working in San Francisco is a plus

Technical Skills:

- Technical knowledge of residential development and construction
- A high level of proficiency in AutoCAD, Revit, or both. Proficiency in 3D modeling and presentation software also required.
- A working knowledge of the California Building Code and allied local codes, and the ability to implement thoughtful design responses that satisfy these requirements
- Ability to effectively communicate through verbal, written, and graphic means

Soft Skills:

- A foundational commitment to high quality work and positive outcomes
- Strong communication and organizational skills. The ability to manage one's own time.
- Strong ability to assess, problem solve, and execute
- Talented 'eye' for Modern design and details
- Sound judgement
