

Senior Architectural Designer for LA28

*AECOM is actively seeking a highly motivated **Senior Architect or Senior Architectural Designer** to join our **Los Angeles Architecture studio**. **This is a pivotal role to work on one of the most exciting, large and complex local projects: LA28!** Beyond our role with LA28, we've been trusted to move the city's infrastructure forward across the energy transition, water security, mobility, sports, education, public safety, climate adaptation and carbon reduction.*

The successful candidate will understand the value of leveraging the design platform that AECOM offers, which is access and collaboration with industry leading designers and technical experts in nearly every design and engineering field. The current and near-term projects that this position would support will be transformational to the communities in which they exist.

Internally, this position will provide the opportunity to serve as an integral part of a planning and design practice that includes planners, landscape architects, architects, interior designers, engineers, and business development professionals. The position will require the ability to support design visions, concepts, and overall design process for complex multi-layered design problems and solutions.

About Our Practice

*US West **Buildings + Places** has a vast market spread and geography, providing opportunities across a wide range of project typologies, including Science & Technology, Advanced Manufacturing, Commercial, Aerospace, Higher Education, Industrial and Process, Transportation, Aviation, Sports and Federal market sectors across the western United States and beyond. As a dynamic team of Architects, Planners and Engineers we strive to incorporate beauty, sustainability, resiliency, equity, and innovation in our projects.*

The responsibilities of this position include:

- *Works independently on architectural design projects and coordinates project design efforts including:*
 - *Performing architectural design calculations*
 - *Preparing drawings, specifications, reports and related data tables.*
 - *Managing and coordinating design and engineering/specialty disciplines*
 - *Preparing, reviewing, and coordinating drawings as required.*
 - *Supervising design teams*
 - *Provides support throughout the project life*
- *Under the direction of the Supervising Architect, may independently perform advanced technical assignments of various complexities within approved schedules and budgets.*
- *Coordinate technical and administrative activities with employees in other disciplines and other departments participating on an assigned project.*
- *Assist in the training and evaluation of assigned architectural and design/drafting personnel.*

Qualifications:

Minimum requirements

- *Bachelor of Architecture degree plus 6-8 years of related experience or demonstrated equivalency of experience and/or education*
- *Autodesk Revit proficiency*

Preferred Qualifications

- *8-10 years of experience as an Architect or Architectural Designer on a variety of building types, including sports facilities*
- *Architectural registration*
- *Experience working with Construction professionals in a collaborative environment*
- *DBIA Certification*
- *Experience with Adobe Creative Suite, Enscape, Rhino and SketchUp*
- *Proficient in Microsoft Office Suite (Word, Excel, Power Point)*
- *Master's degree in Architecture*

Additional information

- *This position will not offer sponsorship now or in the future*
- *Hybrid position, with in-office presence 3 to 4 days a week.*

Salary Range: \$105K to \$170K
