

RCDF Studio is seeking a project architect/designer to work on current projects. Applicants should have a Master's Degree in architecture from an accredited university with a minimum of 4 to 5 year's work experience. We are looking to hire candidates who are available to start work immediately and have authorization to work in the U.S. Responsibilities/Qualifications include:

- Minimum 4 years of architectural design, production & technical experience.
- Coordinate multiple phases of project design and documentation.
- Excellent interpersonal verbal, writing, and graphic communication skills.
- Detail oriented and able to produce accurate and complete work with minimal supervision.
- Well organized, good team worker, professional attitude required.
- Must be proficient in Revit, AutoCAD and Adobe Creative Suite.
- Knowledge of building codes.
- Construction Administration experience with projects in which you prepared CD's required.
- Residential and Commercial experiences a plus

About RCDF Studio (<https://rcdfstudio.com>): We are a small firm which will provide you the opportunity to touch all aspects of the project development process from concept through to construction administration. Current projects include high end residential and commercial interior architecture design projects.

Salary is competitive and based on experience/skill level with benefits. Remote work possible.

Application Instructions: Please email resume to hello@rcdfstudio.com, in PDF format (file size less than 4 MB and do not exceed 10 pages) with design & technical drawing work. Resumes submitted without work samples and a cover letter (describing yourself and why you want to work with us) will not be considered; applications with only a reference to a website will not be considered.

Salary is competitive and based on experience/skill level. No phone calls or walk-ins please.
