

ARCHITECTURAL DESIGNER – Entry to Mid-level

Preen is a 20+ year international, award-winning hospitality design and architecture firm.

We are seeking an exceptional teammate to join our flock. We are looking for a self-directed team player who wants to contribute to and be a part of our next flight of growth. Our ideal candidate loves design, has professional rigor, is a great communicator and approaches life with joy, and a how-can-I-be-of-service attitude.

Our studio is small and powerful. We support restaurants, hotels and wellness projects with creative direction and tenant improvement. We work closely together to create real value and the experience of expression for our clients. We don't just design space, we help concept and build businesses that matter, and we want teammates that believe in contributing to this mission.

We are looking for someone to assist with Project Production and Management. We work in Revit so that is a must. Responsibilities can include Research & Design, Presentations, Documentation & Detailing, Coordination with Clients & Consultants, FF&E Procurement and more. You will be coordinating with clients, builders, consultants and vendors...and we work in hospitality, so liking people and being up for creating great relationships is important. Being organized is as well.

We work in a studio environment and you will be privy to and trained in everything it takes to build a successful project as well as what it takes to create a great office. Personal and professional growth is encouraged and supported.

We ask that you have a degree in Architecture (Masters preferred), have a car or have a plan that will get you to job sites, be permanently legal to work in the US and like animals as we have two parrots in the office.

We are located in Chinatown LA. If you are interested, please email your cover letter, resume, references and portfolio to Alexis at info@preeninc.com.
