

Meijia Construction Engineering LLC

Los Angeles, California

About Us

Meijia Construction Engineering LLC is a full-service construction and engineering firm based in Los Angeles, California, providing architectural design, structural engineering, and permit solutions for residential and commercial projects across Southern California. We are expanding our team to better serve our growing client base.

ARCHITECT

Full Time | On-site | Los Angeles, CA | \$110,000 – \$140,000 / year (Negotiable)

Job Description

We are seeking a licensed Architect to join Meijia Construction Engineering LLC. In this role, you will independently handle architectural design and permit submissions for residential and commercial projects across the Los Angeles area, working on reinforced concrete (RC) structures from concept through permit approval.

Requirements

- Valid California Architect License (required)
 - 5+ years of architectural design experience, with hands-on permit submission experience
 - Authorized to work in the United States
 - Experience with LADBS permit submission process
 - Experience with reinforced concrete (RC) structural projects
 - Strong skills in space planning, construction drawings, and code compliance
 - Familiarity with California building codes and regulations
 - Proficiency in AutoCAD, Revit, and related design software
 - Strong communication and project coordination skills
-
