

MITHUN

Project Architect – Housing— Los Angeles

We are seeking a design-driven Project Architect / Architectural Designer with 10+ years of experience to join our collaborative, interdisciplinary team. The ideal candidate brings strong design iteration and visualization skills, with the ability to develop and execute creative ideas across all project phases. Experience working on affordable housing projects is highly desired, along with a passion for creating equitable, community-focused design solutions. You will work alongside a team of architects, landscape architects, urban planners, interior designers, and consultants — fostering innovation and design excellence.

We currently collaborate in the office Monday through Thursday. Fridays can be in-office or WFH for most roles.

About Mithun—

At Mithun, our design has purpose—to create positive change in people's lives. We are an internationally recognized leader in sustainability, combining exemplary design with a focus on building and site performance, human health and social equity. Since the inception of the practice in 1949, our work has been recognized with hundreds of peer and industry awards including the 2023 AIA Architecture Firm Award, ULI Global Awards for Excellence and eight AIA Committee on the Environment Top Ten Awards, and numerous ASLA and CSLA awards.

We embrace justice, equity, diversity and inclusion (JEDI) as key expressions of our mission of Design for Positive Change. We are committed to promoting JEDI both internally and externally in our firm culture, project work and partnerships. A JUST organization since 2017, Mithun's goal is not just good intentions but real impact for the people, communities and clients we serve.

Role & Responsibilities—

- Explore and develop conceptually strong and innovative design ideas for affordable housing projects that address project goals aligned with Mithun's values and approach.
- Create compelling design presentations using advanced graphic skills. Work collaboratively with interdisciplinary design teams and client representatives.
- Create accurate architectural documentation for all phases of the design process.
- May participate in project pursuits, client presentations and community engagement activities.
- Assist with — or ideally lead — the coordination of multiple consultants and engineered systems.
- Work effectively as both a team member and independently.
- Other duties as assigned.

November 2025

Requirements—

- A bachelor's or master's degree in architecture.
- A minimum of 10 years of post-graduate professional experience, with a background in affordable housing or similar project types.
- Excellent verbal, written, and visual communication skills.
- Experience in all phases of design and documentation, with some exposure to construction administration processes.
- Flexible to play multiple roles across varied project types.
- Ability to lead Revit model development and adept at building information modeling.
- Ability to define and drive project milestones, facilitate project meetings, and effectively coach team members.
- Architectural registration is a plus.
